

WHEAT DRINGS THEM

Desirable Emigrants Flocking to Oklahoma.

SCHOOL LANDS ARE GOING

Western Counties Still Offer Inducements.

Guthrie, O. T., March 12.—(Special)—The phenomenal wheat yield of last year has proved a splendid advertisement for Oklahoma that is yielding returns every day, in the way of immigration and wealth. The demand for farming land is indicated by a report submitted by Land Commissioner Folsom which shows that in three counties, Noble, Garfield and Kay, all the school land has been leased. Lincoln county has but three quarter sections undisposed of; Payne county, five; Pawnee county, thirteen; Cleveland county, three; Oklahoma county, eight; Logan county, one; Canadian county, three; Kingfisher county, seven; Grant county, five. In the extreme western part of the territory which is popularly supposed to be fit only for grazing purposes there is still quite a large quantity, but the fact that there has never been a failure of crops for lack of moisture has had a tendency to explode the theory that west of the Rock Island railroad it is an arid country, and the school land is being rapidly taken up for cultivation. In Washington county, which adjoins Rogers Mills and Greer counties in the extreme southwest of the territory, but two sections of school land remain unoccupied.

Best of All
To cleanse the system in a gentle and truly beneficial manner, when the Spring-time comes, use the true and perfect remedy, Syrup of Figs. One bottle will answer for all the family and costs only 25 cents. Buy the genuine. Manufactured by the California Fig Syrup Co. only, and for sale by all druggists.

WILL F. CLARK CLERK

First Deputy to be Appointed by District Clerk Harris.

Guthrie, O. T., March 12.—(Special)—District Clerk Harris' first appointment of a deputy is Will F. Clark of Oklahoma City, who was notified of his selection yesterday by telegram. Clark went to Newkirk this morning but had no information as to what court he would be assigned. He is a son of Judge Clark who presided over the Third judicial district during Harrison's administration and held during the office of district clerk as long as his father occupied the judgeship.

It is reported that Ed. Korne, one of the editors of the Kay County News, will be appointed deputy clerk for Kay county.

TO TRY GENERAL ROSENBAUM

Governor Barnes Appoints a Court of Inquiry.

Guthrie, O. T., March 12.—(Special)—In conformity to the request of the accused, Governor Barnes this evening appointed a court of inquiry, consisting of Major William P. Baker, Pawnee; Captain F. L. Boynton, Kingfisher, and Captain A. McGinness, Newkirk, to inquire into alleged misconduct of Adjutant General Rosenbaum in an assault on Colonel Stiles and Captain A. W. Dunham of Oklahoma City is named as recorder. The board will meet at Guthrie, March 12.

Raining Along the Santa Fe.

Guthrie, O. T., March 12.—(Special)—Along the line of the Santa Fe railway it has been raining the past twenty-four hours, to the great benefit of wheat and oats. A conservative estimate fixes the acreage of oats at double that of last year and 50 per cent greater of wheat.

To Cure a Cold in One Day

Take Laxative Balm. Tablets. All druggists refund the money if it fails to cure. The genuine has L. B. Q. on each tablet.

TO DEFEND INDIAN BURNERS

Neighbors of the Arrested Men Appeal For Funds.

Tecumseh, O. T., March 12.—(Special)—The Republican says: At a public meeting of citizens held at Remus on Sunday, March 6th, the following resolution was unanimously adopted:

Resolved, That we, the people of the southeastern portion of Pawnee county, in public meeting assembled, embracing those charged by the United States government with various offenses relating to the Indians, Palmer Station and Lincoln McGee, appreciating the gravity of the crisis before us, and the

particular channel, in the voyage like there are many perilous places where we need the help of a pilot who has a thorough knowledge of the special difficulties and dangers to be avoided.

In those delicate physical weaknesses and diseases peculiar to women a general practitioner or ordinary doctor has no opportunity to become thoroughly proficient. Still less to be trusted is the advice of any mere nurse or unscientific person.

Only a specialist who has given a life of study to this particular field of practice, is competent to treat the diseases of women's intricate and complicated organism.

Any woman suffering from these delicate troubles may obtain the most eminent professional advice free of charge by writing to Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. During nearly 25 years at the head of his splendid staff of specialists, he has successfully treated many thousands of cases of obstinate feminine complaints.

His "Favorite Prescription" was devised for the sole purpose of curing the diseases and weaknesses of the feminine organs. No other medicine has been so marvelously successful in this particular field of practice. No other medicine so completely overcomes all the dangers and nearly all the pains of menstruation.

It is with pleasure I recommend Dr. Pierce's Favorite Prescription to all women who are afflicted with any of the above named troubles. I think I thank God I found relief and cure in Dr. Pierce's Favorite Prescription.

The greatest book for women ever published is Dr. Pierce's thousand-page illustrated "Common Sense Medical Adviser," sent free in paper covers for cost of mailing only, 21 one-cent stamps; cloth bound, 50 cents. Address Dr. Pierce as above.

A sea-captain may navigate his ship safely across a cross, the ocean, but when he comes into port he must have a pilot who knows all the difficulties and dangers of that particular channel.

necessity of raising funds and making preparations for defense, to hereby appeal to the public at large to aid in raising sufficient funds to properly conduct the defense of the accused parties.

The great government of the United States, with its unlimited resources, is prosecuting nearly 100 of our people in the United States court at Muskogee. These people are poor and unable to meet the enormous expenses of attorneys, witnesses, bondsmen, etc., hence this appeal.

Resolved, That the newspaper men of Pottawatomie county and Oklahoma Territory are hereby requested to exert their influence in our behalf.

Resolved, That the following committee to-wit: W. R. Foyle, E. Riddle, Elder T. H. Day, Jeff Howard, D. T. Queen and "Tent" McColgan, are hereby appointed to represent our people in the collection and distribution of funds in this cause, and to aid with their advice in this emergency.

Resolved, That the newspapers of the county and territory are requested to publish these resolutions.

H. HOLT, Ch'm'n.

A. J. VINSON, Sec.

Editors throughout the territory are requested to receive donations to this fund and after deducting 10 per cent of amount received, forward the balance to the Bank of Tecumseh, Tecumseh, O. T., where it will be placed to the proper credit. Private individuals wishing to contribute to this fund can send directly to the bank.

"Noxaloid" positively cures a Cold or La Grippe in a day. Guarantee in every case. Sold by all druggists.

PERAL IS ANSWERED

(Continued from First Page.)

A story is circulated here, but not confirmed, that Captain Sampson has been advised from Washington that President McKinley is ready at any time to receive the court's report, and that Captain Sampson replied by a long cipher cable to the secretary of the navy.

Captain Sampson is not looking well and a good deal of anxiety is felt lest he be seriously ill. The doctor of the Montgomery, however, thinks such fears are groundless, while others who should know do not entertain them.

THE VIZCAYA'S VIGILANCE.

A careful watch is kept on board and about the cruiser Montgomery, but the officers of the vessel say that no such nervous vigilance is shown as is displayed by the Vizcaya and the Almirante Queenando, both of which are moored near by.

The Spanish ships at night constantly have patrol boats out, which frequently stop harbor boats coming within the line of the pickets.

Senator Sagasta, the Spanish premier, has written a letter to an intimate friend which was read at a meeting of Conservatives here last Thursday. In the letter the premier says that the disarming of the volunteers had been determined upon, but that the publication of the intention to disarm them was premature.

The news of the recrudescence of the revolution in the Philippines was received here with great disgust by the Spanish residents, and with corresponding satisfaction by the insurgent sympathizers.

PRESIDENT KNOWS ALL THIS

Army and Navy Register Makes the Claim on Authority.

New York, March 12.—The Army and Navy Register, in its issue of today, says: "The Register is in possession of information, the correctness of which it has no reason to question, that certain evidence gathered by the court of inquiry at Havana has come in a semi-official form to the president from two prominent members of the board. This information has been in the hands of the president since Sunday, and has served the occasion of unusual activity during the present week."

"The information is that the Maine was destroyed by a government submarine mine, planted in Havana harbor and deliberately exploded. More than this, it appears the Maine was purposely moored in the vicinity of the mine, and that the explosion occurred at the moment when the ship had been opportunely carried by wind and tide directly over the mine."

"These facts have been hinted at and written about in dispatches from Havana, Madrid and Washington, and among the varied statements made the actual conditions have been touched upon, but nothing authoritative has been permitted to escape from the court. That body is understood to have completed its work, but nothing is likely to be officially promulgated in regard to its findings for a week or more. There are obvious reasons for such an action, the objects of which cannot be defeated by independent newspaper statements. There can be but one outcome of such a report, and preparations for the inevitable result are being industriously and indefatigably prosecuted."

The work of the week related in detail elsewhere in this issue, shows that the government at Washington appreciates the situation and will be ready to meet what has now ceased to be a mere emergency."

MINES IN HAVANA HARBOR

Captain Greenmeyer Tells How He Knows They Are There.

Newport News, Va., March 12.—According to Captain Greenmeyer of the steamship Castilla, from New Orleans to Hamburg, which is now coaling here, there is a network of mines in Havana harbor. Three years ago, he says, his vessel was about to steam into the harbor when it was signalled not to enter. A pilot boarded the ship and explained that engineers were planting mines and that it would be necessary for him to wait several hours before he proceeded into port. Captain Greenmeyer was then master of the Albatross. He was at one time in the German navy.

Concentration at Fort Hancock.

New York, March 12.—Fort Hancock, at Sandy Hook, presented a weird appearance today. Two batteries of seventy-five men each from Fort Slocum and David's Islands and two battalions from Fort Wadsworth, arrived there today. With the 20 women who arrived there are now more men at the fort than at any time since the civil war.

CITY IN BRIEF.

Mrs. Mel. W. Wren has returned from a business trip to Chicago.

Casper G. Haynes left for Newton last night where he will sing today.

Mrs. Spurrier of 701 South Market street, is entertaining Miss Mamie Brown of Cheney.

Mrs. J. R. H. King, who has been so dangerously sick for the past week with pleurisy-pneumonia is convalescent.

The funeral of Mrs. H. H. Leavitt, who died Friday morning, will be held at 2:30 o'clock this p. m. at her late residence, 429 Riverside avenue.

Miss Clara Brower, one of Ponca City's most popular young ladies who has been visiting friends in Wichita the past week, returned home yesterday.

Mrs. Mattie E. Myers died last evening at her home, 53 North Walnut street, after a long illness. Funeral services will be held at the residence today at 3 p. m.

Col. Innes returned this morning from New York, after an absence of four months. He is very much pleased to come back to Wichita, his home for twenty years.

W. R. C. No. 40 will meet in regular session Tuesday, March 15, in Garfield hall at 2:00 p. m. A large attendance is desired as important business is to be transacted.

COMPLETELY DISCOURAGED

Are Thousands of People Who Have Chronic Catarrh.

As a result of our changeable climate catarrh has become one of the most prevalent and universal diseases known to man. Nearly one-third of the people of the United States are afflicted with catarrh in some of its many phases or stages. Add to this fact that catarrh rapidly tends to become fixed or chronic; also the further fact that it is capable of producing a great many other diseases, and we begin to realize the true nature of this dread disease. So formidable has catarrh become that in every city or town of any size numerous doctors are to be found who make the treatment of catarrh a specialty. Mr. Ralph W. Chulip, La Porte, Ind., in a recent letter to Dr. Hartman, says: "I have been troubled with catarrh for the past eight years. I was so bad I had to quit work, and was so weak and dizzy that I sometimes staggered when I walked. I was completely discouraged. After I had taken two bottles of Peruna I began work again and have not felt better in ten years. I feel so grateful that it seems as though I could never stop talking in praise of the medicine."

On application to The Peruna Drug Manufacturing Company, Columbus, Ohio, a free book on catarrh will be sent to any address.

PACIFIC COAST PICKETS

Battleship Oregon Will be Sent Into Southern Waters.

Washington, March 12.—In making preparations for the possibility of the future the navy department has by no means overlooked the strategic defense of the Pacific coast. To guard properly this important seaboard it has been found necessary to station along guard some distance down the Southern Pacific coast. The battleship Oregon, the star of the Indiana, and one of the most powerful vessels in the navy, has been selected for this work. Secretary Long today telegraphed orders to her commander to leave San Francisco and cruise down the southern coast. The vessel will report from time to time by cable to the navy department and receive such instructions as changes in conditions may warrant. At present she is taking on ammunition, about fifty tons in all, which was unloaded at the powder station when the ship went north last fall to have blue keels put in place at the Bremerton naval station. As soon as this work is done she is expected to sail southward.

NEEDN'T LOOK TO GERMANY

Spain Can Fight Her Own Wars if They are Fought.

Berlin, March 12.—The Berlin foreign office has instructed the inspired press to deny emphatically that Germany will aid Spain in case of war with the United States and has instructed these newspapers to point out that the United States is an excellent customer of Germany and that Spain, since the Carolinas snafus, has repeatedly displayed unfriendliness to Germany.

MONTGOMERY IS ALL RIGHT

Commander Converse Denies Rumors and Rebukes Story- Writers.

Havana, March 12.—In an interview had by the correspondent of the Associated Press with Commander Converse of the cruiser Montgomery, regarding the report circulated in the United States that the cruiser had been injured, that officer dictated the following:

"The report is absolutely false. No damage of any kind to hull or machinery has been done to the Montgomery during the nine months she has been under my command."

"Would it not be well for sensation-mongers to give some thought to the feelings of the wives and other relatives of the officers and crew at home before causing deep alarm by such baseless stories?"

There is general indignation here over the story. The correspondent was also requested to deny the rumors telegraphed from here, which he says today for the first time. First, that Captain Stiebel is indisposed; and second, that Consul General Lee and Or. Dunbar, the United States sanitary physician, are no bad terms. Both stories are declared, on the authority of the men named in them, to be without color of truth. Captain Sampson seems to be all right again. The court of inquiry did little work today. The members examined two divers, went over drawings, plans and

photographs in the cabin of the Mangrove and read the stenographer's copy of some past testimony.

The water is very rough, making the work of the divers difficult. The wrecking tug is anchored a cable length from the port side of the Maine, sending down divers.

It is hard to see any marked advance in the work of the wreckers.

The Montgomery was today visited by several Spanish army officers, accompanied by two ladies, all coming on the governor's large. The usual naval and official courtesies were extended by everybody to the officers and ladies of the Austrian training ship Decatur.

The members of the court of inquiry are deeply interested in the account given by this correspondent of the interview had by him with Captain Peral, president of the Spanish court of inquiry. Each member asked questions in order to make the points of Captain Peral clear, but of course made no comment whatever.

The date for the function to be held at the Tacan theater for the benefit of the Spanish navy has not yet been fixed. It is believed that the entertainment will produce \$20,000 in gold, horses continued from \$100 each, and small lotes from \$50 to \$200 each.

A grand ball was given tonight at the Casino Espanol in honor of the officers of the Vizcaya and Almirante Oquendo. Next Wednesday the officers of the same

ships will be given a banquet at the palace by Captain General Hinojosa.

AT FORT LEVENWORTH

No Orders Yet Received, but Likely to Be at Any Time.

Leavenworth, Kan., March 12.—No dispatches ordering the troops at Fort Leavenworth to move had been received up to a late hour tonight, but are momentarily expected. The consensus of opinion among the officers is that a concentration of all troops is to be made at Atlanta, Ga., the coming week.

Colonel Hawkins, commandant at the post, was called upon by an Associated Press correspondent this evening, and in answer to the question whether or not any orders had been received from the war department, said: "None whatever."

Upon being asked whether he had any idea why the batteries from Fort Riley had been ordered to New Orleans, he replied that he thought it rather queer that light artillerymen would be ordered to man heavy artillery.

ALL READY TO FALL IN

Soldiers All Over Colorado Only Await the Word to March.

Denver, March 12.—Acting under special orders received from the officials in the war department at Washington, the commanding officer at Fort Logan has distributed among the various companies stationed there tents sufficient to provide them shelter should they be called to move. The officers have also issued to the soldiers the regulation equipment they would need. As a result of the orders received from Washington the men at the fort are prepared to start at a moment's notice and are prepared for any kind of service. The same preparations are now being made at all the posts in the department of the Colorado.

SAMPSON SENDS A CIPHER

Dispatch is Said to Contain Very Important Disclosures.

New York, March 12.—Captain Sampson last night sent an extensive cipher dispatch to the navy department, says a

More Room and More Styles

We told you last week that our sample floors were so crowded that we were unable to show all of our different styles and that we were making an effort to get more room. We have just secured a lease on the corner room adjoining us on the west, formerly used by the Butterfield Drug Co., and now have four large sample floors—being 100 feet front on Douglas Avenue. With our additional room we are going to show more styles than ever, and will have an assortment unapproached by any concern in the West. On prices we repeat our offer: To make as low prices in all cases, and lower in many cases, than any concern East or West. We show today a cut of a fine Phaeton which we carry in Rubber Tires. We also show a new style Buggy.

This is an elegant Light Phaeton which we carry in Rubber Tires. Finest material and most artistic body made. Price is remarkably low for such a fine job. Strictly good.

A new style Buggy, the new feature being the body and seat.

YESTERDAY WAS ANOTHER RECORD BREAKER—THE BIGGEST DAY OF THE SEASON UP TO DATE.

125 to 126 West Douglas Avenue, Wichita.
101 to 105 South Main Street, Hutchinson.

keels put in place at the Bremerton naval station. As soon as this work is done she is expected to sail southward.
